**Q18.** A **school voucher** system allows parents the option of sending their child to the school of their choice, whether that school is public or private, including both religious and non-religious schools.

If this policy were adopted, tax dollars currently allocated to a school district would be allocated to parents in the form of a “school voucher” to pay partial or full tuition for the child’s school. In general, do you favor or oppose a school voucher system?

**Q24. A tax credit allows an individual or business to reduce the final amount of a tax owed to government. In a “**tax-credit scholarship system**,” a government gives tax credits to individuals or businesses if they contribute money to nonprofit organizations that distribute private school scholarships.**

A nonprofit organization gives a scholarship to a qualifying student who would like to enroll in a private school of their choice, including both religious and non-religious schools. The student’s parent then uses the scholarship to pay partial or full tuition for the chosen private school.

In general, do you favor or oppose a tax-credit scholarship system?

**Q25.** An “open enrollment” policy in K-12 education allows a student enrolled in public school to select and transfer to a public school of their choice, rather than attending a school based on where they live. A student can be allowed to transfer to another public school within their resident school district (called “**INTRA**-district”) or to a public school in another district (called “**INTER**-district”). The policy is based on a first come, first served process until districts are no longer able to accommodate new students.
